About the CalGovHR Certification

As the world's fifth largest economy and with over 39 million residents, California is arguably the most complex state for public sector human resources and labor relations professionals, as the Golden State presents unique challenges and legal requirements that differ significantly from federal laws and those of other states. Given the complexity and extensive knowledge required for California professionals, this certification program is specifically designed to be "*uniquely California*", as the curriculum focuses on California-specific laws with practical pointers related to the areas of talent acquisition, leaves, discrimination and harassment, labor relations, and other employment issues, and the CalGovHR designation will demonstrate your mastery of California HR expertise.

Offered in partnership with CPS HR Consulting, a California-based and nationally-recognized organization for its expertise in delivering a full range of integrated HR solutions, the CalGovHR Certified Professional (CGHR -CP™) designation can be obtained upon completion of the four core California-Specific Institute training classes (Oct. 21 - 24) and possession of at least one year of experience working for a public agency in California. The CalGovHR-CP™ designation is the perfect compliment to your existing HRCI or SHRM certifications. Begin your certification journey by visiting www.CalGovHR.org today!
